Accessories / System Components

Security

Wireless eyeWAVE PIR/PIR Pet CAM
Integrated camera indoor detector for visual verification, captures and transmits a sequence of images in case of an alarm.
RWX95CM/P | 2W WL eyeWAVE PIR/PIR Pet Cam

NEW Beyond Wireless DT CAM
Cutting edge wireless DT outdoor detector with integral high-resolution camera. Optional solar panel for extended battery life.
RWX350DC | WL Beyond DT Cam

NEW Beyond Wireless
Reliable wireless DT outdoor detector with Unique Detection Technologies designed for the Outdoors.
RWX350D | WL Beyond DT

Wireless iWAVE PIR/PIR Pet,
NEW Wireless iWAVE DT/DT Pet
A stylish wall-mount detector with a DT version for higher catch performance. Easy to install with a simple bracket to wall installation.
RW95/P | WL iWAVE PIR/PIR Pet
RW95DT/P | WL iWAVE DT/DT Pet

NEW Wireless BWare PIR/DT
Elegant and modern design with advanced technologies: K-band Microwave for reducing false alarms and convex Lens for enhanced performance.
RWX515PR | WL BWare PIR
RWX515DT | 2 Way WL BWare DT

Wireless Door/Window Contact
A supervised transmitter ideal with magnet for wireless perimeter door/window protection. Easy to install using a simple bracket to wall installation.
RWX73M | 2Way Door/Window Contact
RWX73F | 2Way Multi-Function Contact

Wireless Curtain PIR Detector
Unique sunlight protection technology eliminates false alarm. Supplied with a 90° bracket for installation flexibility.
RWX106 | 1 & 2-Way WL Curtain PIR

Wireless Glassbreak
Detects the breaking of all common glass types and thicknesses. Supplied wall/ceiling swivel for optimal mounting and performance.
RWT6G | WL Glassbreak Detector

Safety

NEW 2-way Wireless Smoke & Heat Detector
The new Smoke and Heat detector, now in a new sleek and elegant look and quick and simple installation.
RWX35S | WL Smoke & Heat

Wireless Flood Detector
Detects and alerts the presence of even small water leaks. Continues to work even when the security system is disarmed.
RWT6F | WL Flood Detector

Keypads and keyfobs

NEW Panda Wireless Keypad
Extremely reliable keypad with a clean design, ideal for users who are looking for a contemporary look and feel in their premises.
RW332KP/P | WL Panda/+Prox

2-Way Wireless Slim Keypad
The stylish, cost-effective 2-Way wireless keypad also includes an internal proximity reader for easy operation.
RW132KL2P | 2-Way White Int. WL Slim Keypad

NEW Panda Wireless Keyfob
The new Wireless 2-Way Keyfob combines the most advanced technologies within a contemporary, compact and streamlined design.
RWX332KF | Panda 2Way KeyFob

2-way Remote Control
A stylish easy to use 8 button keyfob typically used for arming and disarming as well as reviewing the status of the system.
RW132KF2 | 2Way WL Remote Control

Sounders

Wireless Internal Sounder
An aesthetically designed, fully wireless unit designed for indoor environment.
RWS42 | WL Indoor Sounder

Wireless LUMIN8
A fully wireless sounder providing an easy and flexible solution for quick installation.
RWS401A/B | WL Lumin8 Amber/Blue

Technical specifications

Wireless zones (1-Way or 2-Way)	32
Partitions	3
Wireless sounders (2-Way)	3 (indoor or outdoor)
Wired zones	4 (with I/O Expander)
Wired outputs	4 (with I/O Expander): 2x3A relay and 2x500mA
IP Camera (internal/external)	Unlimited number supported through the Cloud server
Wireless PIR Cameras (incl Beyond)	8
Keypads (2-Way)	Up to 3
Remote controls (1- Way or 2-Way)	8
X-10	Supported with I/O Expander
User codes	32
Event log	1000 (panel), 2000 (cloud)
Monitoring Station accounts	3
Follow-me destinations	16 (panel), unlimited (cloud)
Communication	Up to 3: 3G, 2G, IP and PSTN in any combination
Reporting formats	Contact ID, SIA level 2 & 3 (text support), IP/GSM Receiver, SIA IP (with encryption)
Installer programming	Local using the keypad
Methods	Local using RS232 for Configuration Software
	Remote using Configuration Software (3G, GPRS, IP, PSTN) direct or through the cloud
Firmware upgrade	Local via RS232 or remote via 3G, GPRS or IP
Automated scheduling	8 (arm/disarm or output control)
Speaker configuration	External in parallel with internal or additional external
Internal Siren intensity	90 dBA at 1m
End user features	• Smartphone app and web browser for video verification, arm/disarm, control and monitoring the system • Email: Event and images notification • SMS: Event notification and remote control • Audio: Voice event messaging, touch-tone control with full voice menu guide, 2-way audio for listen-in and speak-in • Push notifications, live video stream with recording capabilities
Dimensions (H x W x D)	268.5 x 219.5 x 64 mm (10.57 x 8.64 x 2.52 inch)
Approvals	EN50131 Grade 2, Class II; EN50136; NFA2P
Power	230 VAC (-15%/+10%), 50Hz, 50mA
Operating temperature	-10° C to 40° C (14° F to 131° F)
Storage temperature	-20° C to 60° C (-4° F to 140° F)
Weight (w/o battery)	1.31kg (2.9 lbs) – full configuration
RF Immunity	According to EN 50130-4

RISCO GROUP

Agility™4

Multi-Dimensional Security!

AUTOMATION

VIDEO

SECURITY

RISCO Group is proud to present Agility™4, a wireless multi layered smart security system, modular and adaptable. With a sleek and new design, Agility™4 is equipped with state-of-the-art outdoors and indoors, wireless visual verification that delivers interactive, automated protection in every way.

Identifying that every home is different and unique is at the core of Agility™4, enabling installers to offer their customers a solution that is ideal to each and every customer. Providing several layers of security allows installers to offer homeowners the perfect solution that matches their needs, their specific home structure and infrastructure, as well as their financial capabilities.

➤ **Advanced Communications capabilities and Enhanced RF Performance**: 3G, IP, GPRS and PSTN technologies, multiple paths communication for redundancy and resiliency, and enhanced radio performance.

➤ **Visual Verification, Indoors & Outdoors**: real time event verification, delivered by indoor and new revolutionary outdoor integrated camera detectors.

➤ **Smart Security & Safety**: Integrating smart home devices with remote Cloud based services and intuitive Smartphone App., for a truly enhanced, End-to-End Smart security solution.

➤ **Ultimate Wireless Solution with a new sleek design**: Quick, easy and simple installation with remote maintenance capabilities!

Multi-Dimensional Security

Agility™4 provides complete protection against intrusion and safety hazards, indoors and outdoors at every level, addressing every area of the home environments with its unique elements and attributes:

- **INDOORS**: Monitor and control incidents inside the house, whether a break-in or a safety hazard, Agility™4 protects what matters the most.

- **PERIMETER**: Acting to discourage and prevent an intruder from reaching inside, Agility™4 surrounds the house with a tight security layer that keeps the intruder outside.

- **OUTDOORS**: Agility™4 delivers ongoing deterrence, providing early warnings of possible events and threats approaching the household area.

Multi-Dimensional Business Model

Agility™4 is a flexible and adaptable system, and can always be enhanced and modified according to the homeowner's dynamic lifestyle and requirements, providing the professional installer numerous upsell opportunities for their customers' security systems:

- **SECURE**: Protect the house from burglary and theft with Agility™4 's State-of-the-Art indoor & outdoor wireless detectors, an array of IP cameras for live video verification, providing unmatched level of security for the entire home environment.

- **SAFE**: Keep family members and home surroundings safe and reduce risks of fire, electrocution and flood, by incorporating Agility™4 's innovative safety detectors against hazards such as Flood, Heat & Smoke.

- **SMART**: A truly enhanced security system provides complete peace of mind, efficiency and convenience, all in one comprehensives solution. By integrating smart home and security & safety devices into automated scenarios, and leveraging RISCO's cloud platform services and mobile application, Agility™4, enhances home security into the ultimate smart, interactive solution.

Integration & Synergy

VUpoint, Live Video Verification

Live Video Alarm Verification, with easy installation, P2P technology and unparalleled level of security & privacy. VUpoint sends immediate notification (snapshots and 30 sec video clip) of triggered events right to your mobile device, keeping you always in control, in real time.

iRISCO

A single intuitive app enables full control of security, safety, and Smart Home features, sending push notifications and images immediately to the smartphone, allowing homeowners to decide the best course of action within seconds. Initiating live video, controlling smart home devices, and managing all system detectors - all with a single click, on one interface.

Smart Home

Combining Smart home capabilities, with security and safety solutions allowing for automated pre-self-configured scenarios that enhances your home security – such as turning the lights on to dissuade and discourage potential burglars or turning off home appliances to prevent fire hazard.

Cloud

RISCO Cloud V5 is a robust revolutionary service and management platform for installation companies, transforming an entire company into a cutting-edge, highly efficient, most productive business operation, increasing profits, and driving business growth. It is a one-stop-shop that delivers the ultimate toolbox helping RISCO installers to define marketing strategy, to establish and maintain a long-term customer base, while providing valuable insights into upsell opportunities, increasing recurring monthly revenue (RMR). RISCO Cloud V5 creates a wholesome ecosystem, meticulously designed for RISCO installers.

"Perform any task, in any order, at anytime, anywhere"

New Features

➔ **Enhanced RF Performance (radio)**

Robust, reliable and significantly enhanced RF performance capabilities, for complete flexibility in every installation.

➔ **Advanced Communications - Backup & Redundancy**

Agility™4 offers all the latest communication technologies available – 3G, IP, GSM/GPRS and PSTN, and supports the configuration of multiple paths to ensure full backup and communication resiliency.

➔ **Beyond™ – unlocking a new standard in Outdoor Security**

Outdoor visual verification that keeps the intruder outside, minimizing false alarms, providing a new layer of security, making Agility 4 an even greater visual verification solution.

➔ **A Sleek, Clean Design!**

A new contemporary keypad that seamlessly blends with the wall background, as well as a refined key-fob and additional accessories such as smoke & heat detector, internal siren and more.
